STATEMENT OF OBJECTS AND REASONS.

The Trade Disputes Act was passed in 1929, originally for a period of five years, and was converted into a permanent measure in 1934. It was reviewed by the Royal Commission on Labour and was criticized in certain minor respects by two Courts of Inquiries appointed under it. The proposals contained in the Bill represent the changes which, in the light of experience gained of its working and the opinions expressed upon it, appear to be desirable. The changes of substance are discussed in the Notes on Clauses.

F. NOYCE.

SIMLA:

The 20th August, 1936.

NOTES ON CLAUSES.

Clause 2, sub-clause (a).—In certain areas inland steamer services are indispensable means of communication, while power plants are essentially public utility services.

Sub-clause (b).—At present "trade dispute" includes disputes between employers and workmen or between workmen and workmen. But the main provisions relating to conciliation are limited to the former class of dispute and nothing in the Act applies to disputes between employers and employers. Serious stoppages of work occur at times as a result of differences between workmen and workmen and it may be useful to enable the machinery of the Act to be used in the case of disputes between employers and employers which threaten to interfere with trade and employment.

Sub-clause (c).—With the present definition, it is arguable that discharged strikers have ceased to be workmen, and that in consequence the main provisions of the Act cease to be applicable to disputes with men so discharged. The amendment is designed to make it clear that such men are, despite their discharge, workmen for the purpose of the Act.

Clause 3.—The amendments are consequential on the amendment in clause 2 (*b*); the alteration in wording in the second amendment includes the case where there is more than one employer.

Clauses 4, 5 and 6.—The Railway Court of Inquiry of 1931-32 considered that the Act rendered the presence of the Chairman necessary at every sitting and recommended amendment. These amendments make it clear that the Chairman need not be present at every sitting.

Clause 7.—The amendment to sub-section (*2*) of section 15 is designed to make it clear that it is not necessary, to constitute an offence under the clause, for an employer to lock-out all his workmen without due notice; a partial lock-out should also be punishable.

The new sub-clause (*2A*) is intended to assist the Local Government to decide promptly whether their intervention under section 3 of the Act is necessary by ensuring that the threat of a stoppage is brought to their notice.

Clauses 8, 9 and 10.—The present section 16 is framed in terms which, as experience has indicated, render it of little value for the protection of the community. It is important that any measures which are necessary to protect the public against the serious injury that may be involved in a big dispute should be taken. But it has also to be recognized that those taking direct part in a dispute of this character may have genuine grievances; and it is proposed to ensure that when a strike or lock-out is declared illegal, steps will be taken to have the claims of the parties investigated. The proposed section 16 accordingly provides that any declaration of a lock-out or strike as illegal must be accompanied by the reference of the dispute to a Court of Inquiry or Board of Conciliation; and the period for which the declaration of illegality subsists is limited to two months. The changes in sections 17 and 18 are consequential.

Clause 11.—As the Royal Commission on Labour observed "the heavy artillery of the Trade Disputes Act" as it now stands is not suitable for use in the earlier stages of a dispute; but it is at these stages that conciliation can be most useful. The new section is designed to facilitate the appointment and the work of Conciliation Officers who will not be responsible, as Courts of Inquiry and Boards of Conciliation are, merely for the investigation and settlement of disputes but will be charged with the duty of preventing disputes.

STATEMENT OF OBJECTS AND REASONS.

Chittagong was declared a major port in 1928 after the Chittagong Port (Amendment) Act, 1928, which provided *inter alia* for the transfer to the Governor General in Council of certain powers conferred by the principal Act on the Local Government, had been passed into law. Experience of the exercise of these powers by the Governor General in Council since then has shown the desirability of carrying out certain further amendments in the principal Act. Most of these are of a formal nature, based on the practice and legislation in force at other Major Ports in India. The two most important ones are those which empower the Port Commissioners to frame by-laws, subject to the approval of the Governor General in Council, for the grant of gratuities and compassionate allowances to the surviving relatives of their employees, who die while in service, and to authorise the starting of welfare funds for their staff. The number of amendments deemed to be necessary has now grown large enough to make it desirable to undertake the necessary legislation.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1936.

First Forecast of the Winter Rice Crop of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under winter rice in Bengal has represented some 17·8 per cent. of the total area under rice in India.)

Character of the season.—Ante-monsoon showers were, on the whole, favourable for sowings and for germination of the broadcast paddy in East and North Bengal. The rainfall in June was sufficient for the preparatory tillage and for sowing of winter paddy in seed-beds. With the break of monsoon transplantation progressed favourably over the greater part of the province especially in West Bengal where an increased area was brought under cultivation. Good rainfall in the first part of September further facilitated late transplantation and prospects of transplanted crop particularly in the affected districts of West Bengal have improved. Some damage to low-land crop was, however, caused by floods in parts of Nadia, Murshidabad, Malda and Noakhali. The present outlook is reported to be promising.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 15,487,100 acres as compared with 14,779,200 and 14,836,900 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that 8 districts report a normal crop of 100 per cent., 15 districts a crop varying from 75 to 93 per cent. and the rest below 75 per cent. of the normal.

According to the above estimates, the provincial outturn works out to 88 per cent. as against 80 and 68 per cent. of the normal estimated in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 25th September 1936.

Preliminary Forecast of the Bhadoi Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under autumn rice in Bengal has represented some 6·6 per cent. of the total area under rice in British India.)

Character of the season.—At the beginning of the season insufficient rainfall somewhat interfered with sowings in the high-land tracts of East and North Bengal while in the low-land tracts the progress of the operation was carried on with the usual soil moisture. In May good rainfall facilitated sowings in West and parts of North Bengal. Later on alternate rain and sunshine favoured growth and development generally. Some damage was, however, caused by floods in some low-land tracts of West and North Bengal. On the whole, the season was satisfactory for the crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,490,700 acres as against 6,498,600 and 6,567,100 acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,754,600 acres as against 5,780,400 and 5,851,300 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 80 per cent. of the normal this year as against 74 and 76 per cent., respectively, in the corresponding and final forecasts of last year. Autumn rice is estimated to yield an outturn of 80 per cent. of the normal for the province this year as against 74 and 75 per cent., respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

Calcutta.—No. 7418J.—5th October 1936. —In exercise of the power conferred by section 27 of the Court Fees Act, VII of 1870, the Governor in Council is pleased to make the following rules regarding stamps used to denote fees chargeable in the Court of Small Causes of Calcutta:—

1. No fee shall be charged on the fractional parts of 8 annas, *i.e.*, if a suit be for rupees 10 and odd annas, being less than 8 annas, fee will only be charged on rupees 10. If the amount claimed be for rupees 10-8 and upwards, but under rupees 11, then fee will be charged on rupees 10-8.

2. The necessary stamps shall be provided by the parties liable to pay the fee, and shall, in respect of the institution of suits, be affixed to the plaint, in respect whereof such fees are payable. The costs and fees payable in respect of warrants, subpoenas, second summonses and all other processes whatsoever, not being original summonses in reference to which it has not been customary to file as part of the record any written or printed document or paper whereon the stamp could be affixed, shall be paid as follows, *i.e.*, the party requiring such process to be issued shall produce an application in writing and a stamp equal to the amount of costs and fees payable shall be affixed to such application. Such application shall bear the title of the case or matter to which it relates and shall specify shortly the object thereof and shall be filed in the particular office of the Court to which it relates.

3. In order that the terms of a document may not be defaced or obscured, the stamp affixed to it shall be of an amount corresponding as nearly as practicable with the amount of the stamp which such document requires.

4. Stamps of the value noted below will be required for the purposes of the Court. Such stamps shall be obtained by the Court Stamp Vendor from the office of the Collector of Calcutta direct. The Court Stamp Vendor shall affix on the stamps before their issue a rubber stamp bearing the inscription "Small Causes Court, Calcutta" to denote that the stamps have been issued by him—

As.	Rs.	Rs.
½	1	6
1	2	10
2	3	20
4	4	30
8	5	50

5. No document required to have a stamp shall be received or filed in any proceeding in Court until the stamp has been cancelled or defaced. The cancellation shall be effected by punching out the figure head so as to leave the amount designated on the stamp untouched and the part removed by punching shall be burnt or otherwise destroyed.

6. Whenever a stamp is cancelled in the manner required by rule 5, the date of cancellation shall be marked upon it in writing or with a stamp to be provided for the purpose.

7. The Court Stamp Vendor shall be such person as the Collector of Calcutta shall appoint in this behalf and the stamps shall be sold by him or his assistants in an office or offices situated within the premises of the Court and nowhere else. The Stamp Vendor's office shall be open for the sale of stamps daily (except on such days as the Court shall not be sitting) between the hours of 10 a.m. and 3 p.m.

8. A register shall be kept by the Stamp Vendor in which shall be entered daily the number and denomination of stamps received from the Collector and the quantity sold; and the Collector shall furnish to the Court at the close of each month a memorandum showing the number and value of stamps sold to the Vendor on account of the Court during the month.

9. A register shall also be kept in the office of the Deputy Registrar to be styled the Refund Payment Register and Advice List in which shall be entered the particulars of the cases compromised and of cases in which costs have been remitted either in whole or in part by order of the Judges. It shall also be the duty of the Compromise Clerk to make out the certificates for the payment of half and remitted costs. It shall be the duty of the Deputy Registrar to examine the certificates and to compare them with the original records and if correct to pass and initial the same for payment. The Payment Orders after being signed by the Deputy Registrar shall be paid by the Stamp Vendor who shall receive credit for the sum so paid in his account with the Collector of Stamps. A Daily Advice List of Payment Orders shall be made in triplicate, one of which supported by the Payment Orders themselves as vouchers shall be sent to the Collector through the Stamp Vendor but bearing the signature of the Deputy Registrar and the Collector shall after checking it with the vouchers and seeing that they have been so defaced that they cannot be used again pass an order for payment on the Daily Advice List. The second of the Advice List shall be sent direct to the Collector and the third kept with the Compromise Clerk. When the Collector returns the copy of the Advice List with the date of payment thereof noted under the signature of the Treasury Officer, the date of payment shall be noted on the Court copy of the Advice List. The Payment Orders will remain valid for payment for three days. Any Payment Order remaining unpaid for three days shall be returned by the Stamp Vendor through a Transit Register to the Compromise Clerk and such Payment Orders shall be kept with the Deputy Registrar. These unpaid Payment Orders may be re-issued on the application of the parties with the date altered and thereupon the procedure laid down above for the payment are to be repeated. The Collector shall furnish to the court at the close of each month a statement showing the amount of half costs refunded during the month.

A Advice List bearing the Collector's order for payment and a certificate to the effect that the vouchers noted therein have been duly examined by him and after being checked and examined have been so defaced that they cannot be used again shall be forwarded with the Collector's Advice List of payments to the Accountant-General as a voucher.

10. It shall be the duty of the Superintendent or head officer of the department in which applications are filed with such aid as may be required under the immediate superintendence of the Deputy Registrar to receive all documents and to see that the blank spaces in them are not unnecessarily covered with stamps and that stamps of the proper description and values are affixed and to perform the duties required by rules 5 and 6. The Superintendent shall grant a receipt or memorandum for every application filed.

11. In all cases of doubt as to the necessity of imposing a stamp or the amount thereof the Superintendent of the department in which the application is to be filed shall refer to the Registrar of the Court and that officer shall determine all questions so referred to him subject to the final decision of the Chief Judge of the Court upon such questions as shall be referred to him under the provisions of section 5, Act VII of 1870.

12. The Record-keeper shall, when a record is consigned to the record-room, punch a second hole with a triangular punch in each label distinct from the first punching.

*The second punching should not remove so much of the stamp as to render it impossible or difficult to ascertain its value or nature.

*(Government Revenue Circular, February 1892.)

13. These rules do not apply to fees payable to Counsel and Attorneys of the High Court in cases certified or to the costs of references to the High Court.

14. The notification, dated the 25th February 1881, published on pages 252-53 of Part I of the *Calcutta Gazette*, dated the 2nd March 1881, is hereby cancelled.

Preparation of estimate of increased outturn (section 8).

3. An Estimating Officer shall work under the control and supervision of the Chief Estimating Officer appointed for the notified area of which the charge of such Estimating Officer forms a part.

4. (1) The Chief Estimating Officer shall draw up a list of grades into which agricultural lands in the notified area, and, if he thinks fit, in any area that he may select outside it, shall be divided according to their soils.

(2) He shall assign to each such grade a number or numbers in a valuation scale according to his estimate of the relative productivity of its soil, on the assumption that all the grades enjoy the same rainfall.

5. (1) The Chief Estimating Officer shall draw up a list of sorts into which the lands in each grade in the notified area, and in any selected area, shall be classified.

(2) He shall assign to each sort in each grade a number or numbers in the valuation scale according to his estimate of its relative productivity, on the assumption that all the sorts enjoy the same rainfall as the grades under sub-rule (2) of rule 4.

(3) When the Chief Estimating Officer draws up a list of such sorts for any area where there has already been an improvement, he shall take account of those factors only that influenced productivity before such improvement.

6. In making an estimate of the relative productivity of any sort of land under rule 5 the Chief Estimating Officer may take into consideration (1) such factors as (a) the depth of the soil, its texture and its capacity for retaining moisture and (b) the extent to which the relation of land to adjoining lands influences its chances of receiving water, with or without fertilising matter in suspension, from higher lands or of its being adequately drained, and (2) any classification of agricultural lands that is customary in the area or any part of it.

7. (1) The Chief Estimating Officer may draw up a list of zones into which the notified area and any selected areas shall be divided according to any differences which in his opinion exist in their normal rainfall and which he considers to be such as materially to affect the average productivity of land in such zones.

(2) He shall assign to each zone a figure or figures by the application of which the number or numbers assigned in the valuation scale to any sort of land in any grade may be modified.

8. An Estimating Officer shall decide what grades and what sorts of agricultural lands occur in each village within his charge.

9. (1) The Chief Estimating Officer shall make provisional estimates, for each sort of land within each grade and in each zone in the notified area, of the average outturn of paddy in terms of grain (a) over a period of fifteen years or longer before the improvement, on the assumption that the standard of cultivation was no higher than might, in his opinion, have reasonably been expected from cultivators of ordinary skill in the area when cultivating such sort of land, and (b) after the improvement, on the assumption that full advantage has been or will be taken of any facilities for irrigation that have been or will be afforded by an improvement work and that in other respects the standard or cultivation has been or will be no lower than might, in his opinion, reasonably be expected from such cultivators.

(2) He shall make similar estimates regarding the outturn of paddy straw.

10. In preparing an estimate under clause (a) of sub-rule (1) of rule 9 of the average outturn the Chief Estimating Officer shall take into account any variations in the outturn from land of any grade or sort that have resulted from variations in the amount or distribution of the rainfall during the years covered by the estimate.

11. In preparing an estimate of the average outturn for any local area in which the outturn has been in any year materially reduced by any natural calamity, the Chief Estimating Officer shall exclude from consideration the data appertaining to that year unless, in his opinion, the improvement is likely to be a safeguard against the occurrence or recurrence of such a calamity in the notified area.

12. In preparing an estimate of the average outturn the Chief Estimating Officer may, by application of the valuation scale or otherwise, base an estimate of the outturn from land of any sort at any place within a notified or selected area, for any year or series of years,

upon known or estimated figures for the outturn from land of the same or another sort in the same or another grade in the same or another zone in a notified or selected area.

13. In preparing an estimate of the average outturn a Chief Estimating Officer may take into account any factors which in his opinion are relevant and in particular—

(i) any figures based on crop cutting experiments by any department of Government;

(ii) any estimate or statement that he may find in any publication or record of Government regarding the outturn of any kind of crop from any kind of agricultural land at any place in a notified or selected area, whether before or after the improvement;

(iii) any evidence as to the outturn from, or the relative value of, any kind of agricultural land at any place in a notified or selected area, that may be available from a kabuliat, lease, register, book of account, or other document or in a decree or order passed by a Civil or Revenue Court;

(iv) statements or opinions written or verbal of experts or other persons who in his opinion have special knowledge;

(v) any generally received opinion as to the relative productivity of land in different zones or of different grades or sorts.

Publication of preliminary estimates and hearing of objections [section 8(1)].

14. When a Chief Estimating Officer has made the provisional estimates under rule 9, each Estimating Officer in the notified area shall, by a notice published in the manner specified in rule 17, announce (a) such of the provisional estimates as are relevant to conditions in his charge or any part thereof and (b) an estimate of the average increase in the outturn of paddy, in terms of grain and straw, respectively, from each sort of land within each grade in such charge.

15. A notice under rule 14 shall specify the area to which the notice relates, and shall fix a time and a place at which the Estimating Officer will receive and consider objections under sub-section (1) of section 8.

16. The time fixed under rule 15 for receiving and considering objections shall be not less than ten days after the date when the notice is published in the Collector's office.

17. A notice under rule 14 shall be published in the following manner:—

(a) copies shall be hung up in the offices of the Collector of the district and the District Judge and in the offices of every Subdivisional Officer, Munsif or Sub-Registrar within whose jurisdiction the notified area or any part thereof is situated; and

(b) the fact that such notice has been thus published shall be announced by beat of drum, or in such other manner as the Collector may direct, in such places in that area as the Collector may think fit.

18. At the time and the place fixed in the notice under rule 14 the Estimating Officer shall receive all objections under sub-section (1) of section 8 which may be presented to him.

19. Every objection under sub-section (1) of section 8 shall be made by means of a properly stamped petition.

20. The Estimating Officer shall not be bound to consider any objection under sub-section (1) of section 8 which is presented after the time fixed in the notice under rule 14.

21. (1) On the date fixed in the notice under rule 14 or on any subsequent date to which he may adjourn the proceedings the Estimating Officer shall hear arguments relating to the objections, and shall make a memorandum of any evidence which he thinks fit to take in connection with an objection.

(2) When an Estimating Officer has heard argument on any point raised in or in connection with any objection, it shall not be necessary for him to hear another argument on the same point or on a point which is, in his opinion, substantially of the same nature, in connection with any other objection that has been presented at the same place.

22. Arguments heard and evidence taken by an Estimating Officer under rule 21 shall be heard or taken in public.

23. (1) After considering the objections the Estimating Officer shall forward them and the memorandum of any evidence that he may have taken to the Chief Estimating Officer, with his remarks and with his estimates of the average increase in the outturn of paddy, in terms of grain and straw respectively, from each sort of land within each grade in his charge.

(2) In making estimates of the average increase in the outturn the Estimating Officer shall follow the principles of the provisions of rules 9 to 13.

24. (1) The Chief Estimating Officer, after considering the objections and any recommendations made by the Estimating Officer and after such further inquiry, if any, as he considers necessary, shall forward the estimates received by him from the Estimating Officers to the Board of Revenue, for action under sub-section (2) of section 8, together with his remarks.

(2) At the time of forwarding a report under sub-section (2) of section 8 to the Local Government the Board of Revenue shall also forward the remarks of the Chief Estimating Officer referred to in sub-rule (1).

Estimate of net increase in profits and of net value of estimated increase in outturn [section 10(3)].

25. (1) The Chief Estimating Officer shall make an estimate of the average cost, before and after the improvement, of cultivating paddy on land of each sort within each grade in the notified area, on the assumption that it has been or will be cultivated, in accordance with any standards that are, or will be, in his opinion, reasonable for the cultivation of land of such sort, before or after the improvement, among cultivators of ordinary skill, by labourers paid at such rates as he considers to be prevalent or reasonable for the period for which he makes the estimate.

(2) When the Chief Estimating Officer makes an estimate of the cost of cultivation after the improvement, he shall assume that full advantage has been or will be taken of any facilities for irrigation that have been or will be afforded by an improvement work and shall take into account any saving in labour or material that may have been or is likely to be made possible by such improvement and any change in the standard of cultivation that is, in his opinion, likely to follow such improvement.

(3) The Chief Estimating Officer shall not include the improvement levy as part of the cost of cultivation.

(4) The Chief Estimating Officer shall make separate estimates for land of any sort that has been or may be irrigated by lift after the improvement.

(5) Rent paid for land shall be deemed to be part of the cost of cultivating such land, but the Chief Estimating Officer may base his estimate on the rates or rent generally paid by occupancy ryots for different sorts of land in different parts of the notified area.

26. The Chief Estimating Officer shall make, for each sort of land within the notified area, estimates of the average cost of harvesting and thrashing the paddy yielded by it before and after the improvement.

27. (1) The Chief Estimating Officer shall divide the notified area into tracts according to the relative advantages which in his opinion the cultivators within each tract enjoy as regards disposal of their produce, and, in so doing, he shall have regard to such factors as the proximity of markets, their nature and their accessibility.

(2) He shall fix for each such tract a figure representing the average cost of disposing of the produce in a market.

28. (1) The Chief Estimating Officer shall make for each sort of land within each grade and each zone in the notified area estimates of the gross value of the outturn before and after the improvement, by multiplying the estimated outturn of paddy, in grain and straw respectively, by the price fixed for it by the Local Government under section 9.

(2) He shall deduct from the estimates thus made of the gross value of the outturn of each sort of land in each tract before and after the improvement,

(*a*) the cost of cultivation as estimated by him under rule 25;

(*b*) the cost of harvesting and thrashing as estimated by him under rule 26; and

(*c*) the cost of disposing of the produce in a market as determined by him under rule 27 for such tract.

(3) The difference between the net estimates thus obtained for each such sort of land shall be his estimate of the net value of the estimated increase in the outturn of such sort.

(4) The Chief Estimating Officer shall draw up, in such manner as he may think fit, a list of classes of land on the basis of his estimate of the net value of the estimated increase in the outturn from each such sort of land, and shall assign to the same class, all those sorts for which he estimates the net value of the estimated increase in the outturn to be the same, whether they have been assigned to the same or different grades or to the same or different zones in the valuation scale.

(5) He shall forward to the Local Government the list of classes prepared under sub-rule (4) and the estimates made under sub-rules (1), (2) and (3).

Persons deemed to be occupiers of land for the purposes of section 10(1).

29. The following classes of persons shall be deemed to be occupiers of land for the purposes of sub-section (1) of section 10, in respect of all their agricultural land except that which is let, or sublet, by them to others or which has otherwise passed out of their *khas* possession :—

(*ii*) tenure-holders,

(*iii*) *raiyats*,

(*iv*) under-*raiyats*,

Proportion of improvement levy payable by bhagchasis [*section 10(5)*.]

30. In the Damodar Canal area—

(1) a *bhagchasi* tenant shall be liable to pay a part of the improvement levy that bears the same proportion to the total improvement levy assessed on the land as the share of the produce which he is liable to deliver to his landlord bears to the total produce; and his landlord shall be liable to pay the remainder of the improvement levy;

(2) any other *bhagchasi* shall not be liable to pay any part of the improvement levy.

Preparation of Assessment List (section 13).

31. The Chief Estimating Officer shall decide whether any special advantages or disadvantages shall be recognised in a notified area as affecting materially the productive capacity of individual plots of any sort and shall assign to each such recognised advantage or disadvantage a figure or figures by the application of which the assignment of a plot to a class may be modified.

32. (1) When an improvement work includes means of irrigation, the Chief Estimating Officer shall classify by kinds the facilities for irrigation which existed, or exist, in a notified area before such improvement work, according to the degree to which they enabled, or enable, land to be irrigated for the cultivation of paddy,

(A) in years of normal rainfall (*a*) before or during the transplantation season and (*b*) during the season of flowering and grain formation, and

(B) in years of drought throughout the cultivation season;

and shall assign to each kind a figure or figures by the application of which the assignment, to a class, of land of any sort, enjoying irrigation of that kind, may be modified.

33. (1) An Estimating Officer shall decide to what grade and to what sort each plot in his charge belongs, and shall determine to what class it shall be assigned.

(2) If he is satisfied that a special advantage or disadvantage recognised under rule 31 by the Chief Estimating Officer attaches to an individual plot or that it enjoys facilities for irrigation of any kind classified under rule 32, he shall take into account such advantage, disadvantage or facility when he determines to what class such plot shall be assigned.

(3) Any decision by an Estimating Officer under this rule shall be subject to modification by the Collector.

34. The Estimating Officer shall forward to the Collector a note of his decisions under rule 33, and the Collector, after accepting or modifying such decisions, shall determine at what rate, as declared by the Local Government under sub-section (1) of section 10, the improvement levy shall be imposed on each plot.

35. (1) There shall be a separate assessment list, in form A, annexed to these rules in respect of the agricultural lands in each mauza.

(2) An assessment list shall be in separate parts in respect of persons liable to pay improvement levy (*a*) annually and (*b*) otherwise.

(3) In the Damodar Canal area, the rate shown in column 7 of the assessment list shall be the rate fixed for the class of land under sub-section (*l*) of section 10 or five rupees eight annas per acre, as provided in clause (*b*) of sub-section (6) of section 10, whichever is less.

(4) Fractions of annas shall be neglected when entries are made in column 8.

(5) A separate entry shall be made in columns 5, 6 and 7 in respect of any land held by a *bhagchasi* tenant.

(6) Subject to sub-rule (5), a separate entry shall be made in columns 5, 6 and 7, for each assessee, of the total area of all lands which are assigned to the same class.

36. (1) The Collector shall issue a notice calling upon persons who may wish to claim to be assessed as *bhagchasi* tenants or landlords of *bhagchasis* to apply to him by a fixed date.

(2) No person shall be assessed as a *bhagchasi* tenant unless he is proved to be such, to the satisfaction of the Collector, by the production of an entry in a record-of-rights published after the 21st February, 1929, or of a document in which his landlord expressly admits him to be a tenant or of an order of the Civil Court holding him to be such.

37. An assessment list shall be signed by the Collector, or by an officer authorised by him generally or specially, and published in the manner specified in rule 17 for publication of a notice under rule 14.

(2) Such notice shall show, in respect of such land, the total areas assessed in each class.

(3) Such notice shall show the area of any land occupied by the assessee as a *bhagchasi* tenant or a *bhagchasi* landlord and the name of the *bhagchasi* landlord or the *bhagchasi* tenant concerned.

(4) Such notice shall be in form B annexed to these rules and may be signed by any officer authorised by the Collector.

39. A notice of demand under section 14 may be served in any of the following ways:—

(a) a copy may be tendered or delivered to the assessee by or in the presence of the officer who has signed it and such officer shall record on the original notice a note that this has been done, or

(b) a copy may be served in the manner laid down in rule 179 of the Bengal Practice and Procedure Manual.

Modification of assessment list under section 15.

40. The Collector may by general or special order appoint an officer or officers to receive or inquire into representations made under sub-section (1) of section 15 by persons whose names are included in an assessment list.

41. (1) An officer appointed under rule 40 may, by a written order giving the reason, reject summarily any representation made under sub-section (1) of section 15.

(2) Such order shall be subject to confirmation by the Collector.

42. A claim by any person that his name should be substituted for or added to the name of any assessee in respect of any assessment shall be rejected if such assessee does not admit the claim to be justified.

43. An officer appointed under rule 40 may cause an inquiry into a representation to be made by any other officer appointed under that rule who is subordinate to him.

44. (1) When an officer appointed under rule 40 has inquired into a representation he shall submit a report, with his recommendations, to the Collector who shall pass orders thereon.

(2) Any modification which the Collector orders to be made in an assessment list shall be initialled and dated by him or by an officer authorised generally or specially by him.

45. The republication under sub-section (1) of section 15 of the assessment list shall be made in the manner specified in clause (a) of rule 17 for publication of a notice under rule 14.

46. A revised notice of demand shall be in form B annexed to these rules but shall be marked "modified under section 15."

Addition to or alteration in assessment list under section 16.

47. If, during a period fixed by the Local Government under section 9 and after the publication of an assessment list under section 13, the Collector is satisfied that any entry in such list should be altered owing to any error that has been detected or owing to a change of occupier by succession, bequest, sale, mortgage, gift or lease or by order of a Court or in any other manner or that any land, in respect of which an improvement levy has not been imposed, has been brought under, or become fit for, cultivation, he may after such inquiry as he thinks fit alter such entry or add to the list the name of the person liable to pay the improvement levy in respect of such land at the rate determined by the Collector.

48. Any alteration or addition made under rule 47 or in accordance with sub-section (2) of section 16 shall be initialled and dated in the manner specified in sub-section (2) of rule 44.

Copies of assessment list (section 19).

49. Copies of entries in an assessment list shall be made available in the manner laid down in rules 286-297B of the Bengal Records Manual, 1917, on payment of the fees prescribed therein.

Abatement and Remission (section 20).

50. If the Executive Engineer in charge of any canal which is an improvement work is of opinion that the outturn is deficient over any considerable area owing to a failure to supply water from such canal in sufficient quantity or at the proper time, he shall make a report to the Collector.

51. When the Collector receives a report under rule 50 or has reason otherwise to believe that the outturn is deficient over any considerable area, he shall make or cause to be made a local enquiry as to the extent of any deficiency.

52. (1) Any person, who considers that the outturn of any land, in respect of which he is liable to pay improvement levy, is so deficient as to justify abatement or remission of the levy, may apply by a petition to the Collector for such abatement or remission.

(2) If the Collector does not, for a reason which he shall record in writing, summarily dismiss such petition, he shall make or cause to be made a local inquiry as to the extent of any deficiency.

53. No remission or abatement shall ordinarily be granted as a result of a petition under rule 52 if the Collector is satisfied that the paddy on the land concerned was reaped before, or within fifteen days after, the presentation of the petition, unless an inquiry under rule 51 or rule 52, in respect of the outturn of such land has been completed before the crop was cut.

54. (1) If as a result of an inquiry made under rule 51 or rule 52 the Collector considers that there has been or will be any serious deficiency in the outturn of any land, he shall decide what has been or is likely to be the actual outturn of such land per acre.

(2) If it appears that such deficiency in outturn was due to any neglect on the part of the occupier or to his failure to cultivate such land in accordance with the standard, which in the opinion of the Chief Estimating Officer under rule 25, is reasonable for the cultivation of land of the sort to which such land belongs, the Collector shall decide summarily what would have been the probable outturn if the assessee had not been neglectful or had cultivated the land in accordance with such standard.

Explanation.—Failure to take full advantage of any facilities for irrigation that have been afforded by an improvement work shall be deemed to be neglect.

55. When the Collector has decided the actual outturn or the probable outturn under rule 54, he shall calculate the figure by which such outturn per acre exceeds or falls short of the estimate, as approved by the Local Government, of the average outturn, before the improvement, of land of that class. If the figure exceeds such estimate the Collector shall determine, as far as may be in the manner laid down in rules 28 and 33, a hypothetical rate of improvement levy (*a*) which might have been imposed on the land in question if the figure thus calculated had been substituted for the estimate, accepted by the Local Government under sub-section (2) of section 8, of the average increase in outturn, and (*b*) as regards the Damodar Canal area, which might have been realised if sub-section (6) of section 10 had not been enacted.

56. (1) If the hypothetical rate of improvement levy determined under rule 55 is higher than the rate entered in column 7 of the assessment list for the land in question, the Collector shall not allow any abatement or remission.

(2) If such hypothetical rate is lower than the rate entered in column 7 of the assessment list for the land in question, the Collector shall, subject to rule 57, allow a remission of the improvement levy at the rate of one anna per acre, calculated to the nearest anna, for every complete anna by which such hypothetical rate falls short of the rate entered in column 7 of the assessment list.

(3) If the outturn per acre, as decided by the Collector under rule 54, falls short of the estimate, as approved by the Local Government, of the average outturn, before the improvement, of land of that class, the Collector shall, subject to rule 57, allow total remission of the improvement levy.

57 (1) The Collector may allow remissions in any year up to a total of 5 *per cent.* of the demand for a notified area for that year.

(2) Subject to confirmation by the Commissioner he may allow further remissions up to 10 *per cent.* of such demand in the year.

(3) If the Collector considers it probable that remissions in excess of a total of 15 *per cent.* of such demand in a year will be necessary he shall report the facts to the Local Government through the Commissioner, and may allow such further remissions as may be approved by the Local Government.

58. Subject to rules 59 and 60 the Collector may allow an abatement of improvement levy in respect of any land if he is satisfied, after inquiry, that the position assigned to such land in the valuation scale is higher than is justified.

59. If the Collector considers that an abatement should be allowed because in his opinion there is an error in the valuation scale or in the estimate accepted by the Local Government under sub-section (2) of section 8, he shall submit a report to the Commissioner, who shall, if he thinks fit, refer it to the Local Government for orders, and, without an order from the Local Government, the Collector shall not allow any abatement.

60. (1) The Collector may allow abatements in any year up to a total of 2½ *per cent.* of the demand for a notified area for that year.

(2) Subject to confirmation by the Commissioner he may allow further abatements up to 5 *per cent.* of such demand in the year.

(3) If the Collector considers it probable that abatements in excess of a total of 7½ *per cent.* of such demand in a year will be necessary he shall report the facts to the Local Government through the Commissioner, and may allow such further abatements as may be approved by the Local Government.

61. Notice shall be given in the area concerned, as soon as possible, of—

(a) any local inquiry to be made under rule 51, or

(b) any abatements or remissions, except rebates under rule 65, that have been allowed over any considerable area.

Such notice shall be announced by beat of drum or in such other manner as the Collector may direct, in such places in the area as the Collector may think fit.

62. When an abatement or remission, other than a rebate under rule 65, has been allowed, a notice, giving details of such abatement or remission, shall be served on the assessee concerned in the manner specified in rule 39, for service of a notice of demand.

63. The Collector shall not, without the prior sanction of the Local Government, grant any abatement or remission on the ground that he considers that the price of paddy, whether grain or straw, is less than that fixed by the Local Government under section 9.

Manner of collection and date of payment (section 21).

64. (1) The Collector may divide a notified area into circles for the purpose of the collection of improvement levy.

(2) He may collect the improvement levy through officers appointed for the purpose.

(3) An assessee shall pay the improvement levy, either directly or by money order, to an officer thus appointed within the area or circle where the land in respect of which the assessment is made is situated.

(4) If the assessee pays the improvement levy by money order he shall quote therein the number and date of the demand notice in respect of which the payment is made.

65. In the Damodar Canal area a rebate of half an anna in the rupee, calculated to the nearest anna, shall be allowed on the total amount payable under any notice of demand if such amount is paid in full at any time earlier than fifteen days before the date specified in rule 66.

66. (1) The date on which an assessee shall become liable under sub-section (2) of section 21 to pay interest from the date fixed in the notice of demand under rule 38 shall be for the Damodar Canal area 15th February.

(2) The rate of interest payable under the said section shall be six and a quarter *per cent.*

Manner of making refunds (section 22).

67. (1) If the person to whom a refund is due under section 22 applies for payment in cash, the Collector shall pay him the amount through the Treasury. If the person who has so applied does not appear to receive payment or if the person to whom such a refund is due applies for payment by money-order, the Collector shall pay him the amount by money-order after deducting the cost of such transmission.

(2) If the person to whom such a refund is due does not apply for payment the Collector may make the refund—

(a) by causing the amount to be shown as advance payment against any demand already due or likely to be due, from such person under the Act, or

(b) by money-order after deducting the cost of such transmission.

Right to supply of water (section 29).

68. In the Damodar Canal area the period within which no person shall have a right to a supply of water under the Bengal Irrigation Act, 1876, shall be from the 1st November to the 30th June.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

[As introduced in the Legislative Assembly.]

A

BILL

Further to amend the Indian Railways Act, 1890, for certain purposes.

WHEREAS it is expedient further to amend the Indian Railways Act, 1890, for the purposes hereinafter appearing; It is hereby enacted as follows:— IX of 1890.

Short title.

1. This Act may be called the Indian Railways (Amendment) Act, 1936.

Amendment of section 68, Act IX of 1890.

2. Section 68 of the Indian Railways Act, 1890 (hereinafter referred to as the said Act), shall be re-numbered as sub-section (*1*) of that section and to the section as so re-numbered the following sub-section shall be added, namely:— IX of 1890.

"(*2*) A railway servant when granting the permission referred to in sub-section (*1*) may, if empowered in this behalf by the railway administration, grant to the passenger a certificate that the passenger has been permitted to travel in such carriage upon condition that he subsequently pays the fare payable for the distance to be travelled."

Substitution of new section for section 112, Act IX of 1890.

3. For section 112 of the said Act the following section shall be substituted, namely:—

Travelling or attempting to travel without proper pass or ticket.

"112. (*1*) If a person enters in contravention of section 68 any carriage on a railway, he shall, unless he satisfies the Court that he had no intention to defraud the railway administration, be punished with imprisonment which may extend to two months, or with fine which may extend to one hundred rupees in addition to the amount of the single fare for any distance he may have travelled.

(*2*) If a person uses or attempts to use a single pass or single ticket which has already been used on a previous journey, or, in the case of a return ticket, a half thereof which has already been so used, he shall be punished with imprisonment which may extend to two months, or with fine which may extend to one hundred rupees in addition to the amount of the single fare for any distance he may have travelled.

(*3*) Any railway servant authorised by the railway administration in this behalf or any other person whom such railway servant may call to his aid may remove from a carriage a person found travelling therein without having a proper pass or ticket with him, unless he then and there pays the fare and the excess charge which he is liable to pay under the provisions of section 113."

Amendment of section 113, Act IX of 1890.

4. In section 113 of the said Act,—

(*a*) to sub-section (*2*) the following proviso shall be added, namely:—

" Provided that the excess charge referred to in sub-section (*1*) and this sub-section shall not be payable if the passenger has with him a certificate issued under sub-section (*2*) of section 68.";

and

(*b*) after sub-section (*4*) the following sub-section shall be added, namely:—

"(*5*) An application made under sub-section (*4*) shall contain a statement, certified as correct by the railway servant, of the sum payable by the passenger, and such statement shall, unless the contrary is proved, be proof that the sum so stated is recoverable from the passenger."

Amendment of section 131, Act IX of 1890.

5. In section 131 of the said Act,—

(*a*) in sub-section (*1*), after the figures "101" the figures "112" shall be inserted, and after the word, brackets and figure "sub-section (*1*)" the following words shall be inserted, namely:—

" or if a person fails or refuses to pay any excess charge or other sum demanded under section 113 and there are reasonable grounds for believing that except by his arrest he cannot be placed before a Magistrate without undue delay, trouble or expense,";

and

(*b*) to sub-section (*2*) the following words shall be added, namely:—

"or, in the case of a person arrested on failure to satisfy a demand made under section 113, before the Magistrate to whom the application under sub-section (*4*) of section 113 is to be made".

Amendment of section 132, Act IX of 1890.

6. In sub-section (*1*) of section 132 of the said Act the words "or fails or refuses to pay any excess charge or other sum demanded under section 113" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Bill is intended to permit of more effective and deterrent action being taken than is possible under the existing law when persons are found travelling by railway without proper tickets. Although railways have provided an elaborate and expensive organisation for the check of tickets both at stations and in trains, the number of cases detected of passengers travelling without proper tickets has tended to increase, and the amount recovered from them approximates to the amount spent on the organisation for check in trains. Experience has shown that any expenditure incurred on additional checks by the appointment of more travelling ticket checkers results in an increase of revenue proportionate to the increased expenditure. This indicates to some extent the seriousness of the evil which, it has been estimated, causes a loss of about 50 lakhs annually.

2. The sections of the Act under which action can be taken at present are 112 and 113. The former refers to cases in which there is intent to defraud a railway and the latter to cases where there is no such intent. In cases in which action is taken under section 112 the onus of proving intent to defraud rests on the railway staff, the discharge of which is not always practicable. It is proposed, therefore, that the onus of proving that there was no intent to defraud should rest on the person found travelling without a proper ticket. The penalty of a fine extending to Rs. 100 prescribed under section 112 has proved, in practice, to be ineffective and the Bill therefore provides for a sentence of imprisonment to be inflicted.

3. Most cases in which passengers found travelling without proper tickets are, however, dealt with under section 113 under which a passenger is liable to pay in addition to the fare due an excess charge equal to the amount of the fare but not exceeding the maxima provided in section 113, sub-section (*3*). The maximum excess charge in the case of a third class passenger is one rupee when he is detected before he has notified his liability, and two annas otherwise. A passenger who declines to pay the amount demanded can, under the present law, only be asked to give his name and address. If these are disbelieved, arrangements have to be made to hand the man over to the police to be placed before a magistrate. In many cases, such passengers are found to have no assets and are discharged. Where a distress warrant is issued against any person, the results are usually quite incommensurate with the time, trouble and expense involved in court proceedings, etc., as the amount payable is frequently not realised. To deal effectively with such cases, it is necessary that railway servants should be empowered to arrest such persons as refuse to pay the charges due if there is reason to believe that it will not be possible to get them to appear before a magistrate without undue delay, trouble or expense. Provision for this has been made in the proposed amendment to section 131 of the Act.

(8) After rule 44 so deleted, *insert* the following rules:—

I. Votes shall be given by ballot and in person and no votes shall be received by proxy.

II. The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of voters to be admitted at one time, and shall exclude all other persons except—

(*a*) the assistant presiding officers, the candidates, and one agent of each candidate (hereinafter referred to as the polling agent) appointed in writing by the candidate and authorized in this behalf by the Magistrate of the district;

(*b*) the police or other public servants on duty; and

(*c*) such other persons as the presiding officer may from time to time admit for the purpose of identifying voters.

III. Each polling station shall be furnished with such number of compartments, in which voters can record their votes screened from observation, as the presiding officer thinks necessary.

IV. (1) The presiding officer shall provide at each polling station materials sufficient for the purpose of enabling voters to mark the ballot papers, instruments for stamping an official mark on the ballot papers, as many ballot boxes as may be necessary and copies of the final register of voters (hereinafter referred to as the electoral roll) or of such part thereof as contains the names of the voters entitled to vote at such station:

Provided that the ballot papers at each polling station in which votes are recorded for a special electoral unit shall be placed in a separate ballot box set apart for the purpose.

(2) The official mark shall be kept secret, and a period of not less than seven years shall intervene between the use of the same official mark at elections for the same thana.

V. Every ballot box shall be so constructed that the ballot papers can be introduced therein, but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show each ballot box to be used at the poll to such persons as may be present in such station, so that they may see that it is empty, and he shall then lock it up and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall keep it so locked and sealed.

VI. Immediately before a ballot paper is delivered to a voter, it shall be marked on the back with the official mark, and the number, name and description of the voter as stated in the electoral roll shall be called out, and the number of the voter shall be entered in a ballot paper list which shall be in Form A appended to these rules and a mark shall be placed in a copy of the electoral roll against the number of the voter, to denote that he has received a ballot paper, but no mark shall be made and nothing shall be written on the copy of the electoral roll to show the particular ballot paper which he has received. On the ballot paper list shall be entered the name of the thana and the name or distinctive number of the polling station:

Provided that if the thana is comprised in a special electoral unit, a separate ballot paper should also be delivered to the voter, in like manner, for recording his vote for a special candidate or candidates.

The voter, on receiving the ballot paper, shall forthwith proceed into one of the compartments in the polling station and there make a mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the back of the ballot paper, and fold it up so as to conceal his vote, and, after showing to the presiding officer the official mark, shall put the ballot paper so folded up into the ballot box. Every voter shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box:

Provided that if a separate ballot paper has been also given to the voter to record his vote for a special electoral unit the voter shall record his vote on such ballot paper in the manner provided in this rule and shall, thereafter, put the ballot paper in the separate ballot box provided for the purpose.

Note.—No objection shall be taken to a voter on the ground that he does not want any secrecy in his voting.

VIII. If the voter, owing to illiteracy or infirmity, is unable to read a ballot paper or to make a mark thereon, the presiding officer shall mark the vote or votes in the ballot paper according to the direction of the voter. The voter shall then himself or with the assistance of the presiding officer put the ballot paper folded up into the ballot box.

IX. At any time before a ballot paper is delivered to a voter the presiding officer or the assistant presiding officer may of his own accord, if he has reason to doubt the identity of the voter or his right to vote at such station, and shall, if so required by a candidate, put to the voter the following questions:—

XI. If a person representing himself to be a particular voter named on the electoral roll applies for a ballot paper after another person has voted as such voter the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to receive a ballot paper. Such ballot paper (hereinafter referred to as a tendered ballot paper) shall be of a colour different from the other ballot papers and, instead of being put into the ballot box, shall be

given to the presiding officer and endorsed by him with the name of the candidate for whom such person desires to vote and with the name of the voter and his number on the electoral roll and shall be set aside in a separate packet and shall not be counted by the presiding officer. The name of the voter and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form C annexed to these rules, which shall bear the heading "Tendered votes list." XIII. XIV. At a thana election or at an election in a special electoral unit, where there is more than one polling station the presiding officer of each polling station, as soon as practicable after the close of the poll, shall in the presence of any candidates or polling agents who may be present, make up into separate parcels and seal with his own seal and the seals of such candidates or polling agents as may desire to affix their seals—

(*b*) After the number of ballot papers received in each box from each polling station has been recorded, the ballot papers from all the ballot boxes which contain ballot papers on which votes for special candidates have been recorded shall be mixed together; similarly the ballot papers from the remaining ballot boxes shall also be mixed together. They shall then be sorted according to the candidates for the ordinary or special seats for whom they have been cast, and distributed in convenient bundles to persons appointed to assist in counting the votes and thereafter the presiding or the chief presiding officer shall allow the candidates, and any representatives duly authorized under rule XVII, reasonable opportunity to inspect without handling the ballot papers, and shall on every ballot paper which is rejected endorse the word "rejected". GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 97T.L. — 10th October, 1936. — His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information :—

THE BENGAL LOCAL SELF-GOVERNMENT ASSOCIATIONS (RECOGNITION) BILL, 1936.

A

BILL

to provide for the recognition by the Local Government of certain associations interested in the administration of local self-government in Bengal and to enable contributions to be paid by local authorities to associations so recognised.

WHEREAS it is expedient to provide for the recognition by the Local Government of certain associations interested in the administration of local self-government in Bengal and to enable contributions to be paid by local authorities to associations so recognised ;

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Local Self-Government Associations (Recognition) Act, 1936.

Recognition of local self-government associations.

2. The Local Government may, if it thinks fit, by notification in the *Calcutta Gazette*, recognise any association, which, in the opinion of the Local Government, has been established in Bengal with the sole object of encouraging the discussion of matters of importance relating to the administration of local self-government in Bengal, or otherwise generally promoting the interests of local self-government therein, and the Local Government may also, if it thinks fit, at any time, in like manner, withdraw such recognition.

Contribution by local authorities to recognised associations.

3. Notwithstanding anything contained in any other Act, the Corporation of Calcutta, the Commissioners of any municipality at a meeting, a district board or a union board may, subject to the provisions of any rules made under section 5, pay a contribution, annually or otherwise, from the municipal, district, or union fund, as the case may be, to the funds of any association which is, for the time being, recognised by the Local Government under section 2.

Payment of travelling expenses.

4. Notwithstanding anything contained in any other Act, any member of a local authority which contributes to the funds of an association recognised under section 2 who attends, as a representative of such local authority, a general meeting of the association held in Bengal may, subject to the provisions of any rules made under section 5, be paid from the fund of such local authority the travelling expenses incurred by him in attending the meeting.

Power to make rules.

5. (*1*) The Local Government may make rules for carrying out the purposes of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power the Local Government may make rules to provide for all or any of the following matters, namely :—

(*a*) the maximum rates at which, and the conditions subject to which contributions may be paid under section 3 ;

(*b*) the rates at which, the conditions subject to which, and the maximum number of representatives to whom, travelling expenses may be paid under section 4.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide for the recognition by the Local Government of associations formed in Bengal with the sole object of promoting the interests of local self-government in the province and to enable the local bodies to pay contributions to the funds of a recognised association and also to defray the travelling expenses of their representatives for attending a general meeting of such association, subject to certain conditions. According to legal opinion recently tendered to Government, the payment of such contributions or travelling allowance from the funds of the local bodies is not authorised under the existing law relating to such bodies outside the area of the local body. It is considered anomalous that the local bodies in this province should have no power to contribute to the funds of a recognised association, especially formed with the object of promoting their common interests, and to incur the necessary expenses for participating in its deliberations, especially as such associations are known to render valuable public service in Great Britain.

STATEMENT OF OBJECTS AND REASONS.

The Indian Motor Vehicles Act, 1914, was framed to suit conditions prevailing at a very early stage in the development of motor transport in India. The rapid growth of that form of transport in twenty-two years makes it necessary to empower local authorities to exercise a closer control than the present Act permits in the interests alike of the development of a co-ordinated policy of roads and railways, and of the safety and convenience of the public.

The question of the co-ordination of road and railway, the elimination of wasteful and uneconomic competition between the two forms of transport and the methods by which these objects can be secured consistently with the public interest, has engaged the attention of the Government of India for some years past. In 1932-33, Messrs. Mitchell and Kirkness carried out, at the instance of the Government of India, an enquiry into these problems and their report, which was published in January 1933, emphasised the importance of early action. The Road-Rail Conference convened by the Government of India in April 1933 passed a resolution, *inter alia*, recommending control of public service and goods motor transport in the interests of public safety and convenience, and restriction of vehicles to prevent wasteful competition. Thereafter, in January 1935, the Transport Advisory Council, at its first meeting, made definite recommendations to the same effect. Amendments to the Act were drafted to give effect to the recommendations as far as possible and Local Governments were consulted. The latter were, on the whole, in favour of legislation but there were differences on points of detail. It is generally recognised that it will be necessary, before long, to undertake a general revision of the Act, but the Government of India consider that it is essential in the meantime to give powers to Local Governments to regulate transport motor vehicles, as well as trailers and other attachments, and to enforce where necessary regional and route control as recommended by the Transport Advisory Council. The Government of the United Provinces have already enacted a similar measure. The Bill now presented is the outcome of the discussions referred to and represents the final recommendations of the Transport Advisory Council at its last meeting in July 1936.

SIMLA;

The 3rd August, 1936.

NOTES ON CLAUSES.

Clause 1 (1).—In order to avoid possible complications on the coming into force of the Government of India Act, 1935, it is proposed that the amendments take effect forthwith. Clause 7 ensures that there will be no embarrassment to Local Governments.

Clause 1 (2).—Since the local legislature of the United Provinces have recently passed an Act much on the lines of the Bill, it is proposed to exclude that Province from the immediate scope of the Bill, but provide that the Local Government may, by notification in the local Gazette, extend the amended Act to the United Provinces.

Clause 2 (a).—The widening of the definition of "motor vehicle" is intended to bring trailers and other attachments as such within the scope of the provisions of Part III of the 1914 Act. Suitable exemptions can be allowed under section 13 if Local Governments consider it unnecessary to require the registration of light trailers or other attachments.

Clause 2 (b).—The term "transport motor vehicle" has been used in preference to the more familiar "public service motor vehicle" or "public motor vehicle" as less likely to cause confusion with the British Acts and existing provincial rules. The term has been very widely defined so as to include not only vehicles *used* for the carriage for hire or reward of passenger or goods or both but vehicles *adapted for such use*. This must be borne in mind in considering the suitability of the provisions which follow.

Clause 3.—Proposed new section 10A.—(1) This sub-clause as drafted gives Local Governments very wide discretion as to the authorities to be appointed, the powers to be exercised by those authorities, and the classes of public transport motor vehicles to be controlled. In the opinion of the Government of India it is desirable to empower Local Governments to constitute, in each province, a provincial authority with power to supervise and co-ordinate, and "area" authorities exercising jurisdiction within specified areas.

(2) This sub-clause introduces no new principle, as motor vehicles which are let or plied for hire are already subject to special regulation. The word "countersigned" has been preferred to "endorsed", in view of the special meaning attached to endorsements in section 18.

Proposed new section 10B.—(a) This confers power to limit the number of public transport motor vehicles of any specified class to be used in any area or on any specified route. The absence of this power is one of the main defects in the Act as it now stands.

(b) "Road Service Permits" may be granted for an area or a route and not only for individual vehicles but for "services" or "fleets", *e.g.*, an owner employing ten vehicles of which not more than 8 are in use at any one time would be able to obtain a permit covering the simultaneous use of eight vehicles of a stated capacity.

(c) It will be seen that power is given to fix the limits of the rates to be charged for goods. It is obviously desirable that the transport authority or other prescribed authority should have such power.

(d) The power to cancel or suspend is dealt with in clause 6.

Clause 4.—(a) Provision for inspection is clearly needed. Vehicles found on inspection to be unfit for use can be dealt with under rules made under section 11 *(2) (i)*.

(b) In view of new sections 10B and 11A, section 11 *(2) (e)* is no longer required and it is proposed to repeal it subject to the safeguard provided in clause 7.

(c) Unauthorised bus stands have been found to be a source of confusion and have interfered with proper traffic regulation.

(e) It is considered that existing clauses *(c)*, *(h)* and *(i)* of section 11 *(2)* are possibly insufficient to enable Local Governments to make rules regulating the classes of motor vehicles which may be used in specified areas or on specified routes, or where necessary prohibiting altogether the use of specified classes of motor vehicle.

(f) The first Transport Advisory Council which met in January 1935, recommended that provision should be made for insurance against passenger and third party risks, and the importance of having such a provision has been brought to notice in connection with several road accidents in recent months.

Clause 5. The new section 11A confers rules making powers on Local Governments with special reference to transport motor vehicles, transport authorities and road service permits which will enable them to carry out the recommendations of the Transport Advisory Council.

Clause 6.—Local Governments are given full discretionary powers to cancel or suspend road service permits and to make disqualifications; transport authorities are given power to cancel or suspend road service permits issued by them, and other prescribed authorities the power to suspend road service permits.

Clause 7 is intended to remove any doubts that might exist as to the rules now in force.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 6th October 1936.

Second Forecast of the Sugarcane Crop of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the outset weather was favourable for planting except in some West Bengal districts where the progress of the operation was slow owing to shortage of rain. Since then conditions proved beneficial for growth and development generally. Some damage by floods was, however, caused in the low land tracts while in the high land tracts the crop is progressing satisfactorily. The present prospects are hopeful, on the whole.

Area planted.—The total area planted with the crop for the province is reported to be 354,600 acres this year as against 325,300 and 325,400 acres reported respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province this year works out at 84 per cent. of the normal against 85 and 83 per cent. respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 84 per cent. as against a ten years' average of 85·5 per cent. This means that the condition of this year's crop is equal to about 98 per cent. of the ten years' average.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2470L.C.—16th October, 1936.—The following report of the Select Committee on the Bengal Local Self-Government (Amendment) Bill, 1936, with the Bill embodying amendments recommended by them, is hereby published for general information.

Report of the Select Committee on the Bengal Local Self-Government (Amendment) Bill, 1936.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Local Self-Government (Amendment) Bill, 1936, was referred by a motion carried in the Bengal Legislative Council on the 30th March, 1936, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in an Extraordinary issue of the *Calcutta Gazette* of the 24th March, 1936.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 27th August, 1936, and reconcluded its sittings on the 31st *idem*.

5. The changes made in the Bill are as follows :—

Clause 1.—We have added sub-clause (*2*) as it is apprehended that the immediate application of some of the amendments made by the Bill might, in certain cases, give rise to practical difficulties and this sub-clause affords a means of avoiding such difficulties.

Clause 2.—The changes in this clause are of a drafting character and are made for greater precision. In certain exceptional cases the Bengal Village Self-Government Act, 1919, has been brought into force in an area, but union boards have not been established. The distinction drawn by this clause should be between areas in which union boards have been established and areas in which they have not been established, rather than between areas in which the Bengal Village Self-Government Act is in force and areas in which it is not in force.

Clause 3.—We consider that " year " should mean the year commencing on the 1st April, and that the remaining portion of the original provision in this clause is not necessary. This has entailed the redrafting of the clause.

Clause 5 (4).—The changes made are purely of a drafting character, and have been adopted for the sake of uniformity of wording and greater precision.

Clause 8 (proposed section 36E).—The changes made in sub-section (*1*) are designed to meet a practical difficulty, namely, to avoid the preparation of a new electoral roll in case the election is postponed.

In sub-section (*2*) the word " the " has been omitted in order to avoid any possibility of misinterpretation when a bye-election is concerned.

Clause 9, sub-clause (1).—It was not the intention to omit the reference to " candidates ". This has been corrected.

Sub-clause (2).—This is consequential on the change made in proposed new section 36E.

Clause 11A.—We consider that, in view of proposed new section 36E, these consequential amendments should be made in section 7 of the Bengal Village Self-Government Act, 1919.

Clause 16A. -This is consequential on clause 11A.

NOTE.—The signatures of Babu Jitendralal Bannerjee and Khan Bahadur Maulvi Mohammed Basir Uddin had not been received up to the time of printing the Report.

Khan Bahadur Maulvi Emaduddin Ahmed died before the Select Committee met.

Minute of dissent by Mr. Narendra Kumar Basu, M.L.C.

Clause 7.—I have not been apprised of any facts rendering this change necessary. The term of office of district boards was three years ever since 1885. This was changed to four only at the end of 1932, and we have had no experience of how the prolongation has affected the working of the boards and their executive. I therefore oppose this change.

Clause 8.—I am afraid we are rushing this matter without sufficient consideration. We have had no opinion from anybody as to whether it would lead to more efficient local self-government if we abolished the district boards and gave more powers to local boards. Decentralization is the slogan of the period. This Bill is really against that idea and favours more centralization. I do not see my way to support this, and so do not think the Bill should be passed by the Council.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1936.

(Embodying amendments recommended by the Select Committee.)

[NOTE.- All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.]

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 2471L.C.—16th October, 1936.—The following report of the Select Committee on the Bengal Non-Agricultural Lands Assessment Bill, 1936, with the Bill embodying amendments recommended by them, is hereby published for general information.

Report of the Select Committee on the Bengal Non-Agricultural Lands Assessment Bill, 1936.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Non-Agricultural Lands Assessment Bill, 1936, was referred by a motion carried in the Bengal Legislative Council on the 27th March, 1936, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in *italics* and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English before introduction in the *Calcutta Gazette* of the 19th March, 1936.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 24th August, 1936, and concluded its sittings on the 8th September, 1936.

5. The Committee heard the representations made by Babu Tapash Chandra Banerjee on behalf of the tenants of such estates of Dacca as have come under the *khas* possession of Government and by Babu Chandra Sekhar Sen on behalf of the Wari lessees in Dacca.

6. The question of lands which have been let out for building purposes to lessees who were required to erect buildings thereon according to Government specifications and which are in the actual possession of the lessees is one which, in the opinion of the Committee, merits further consideration in order that the new assessment may not be oppressive.

7. The amendments recommended by us are as follows:—

Long title and preamble.—The changes in the long title and the preamble are of a formal character and are made for greater precision.

Clause 2.—We have omitted the word "assessment" in the expression "assessment roll" in this clause and throughout the Bill as we consider that it is not necessary and that it is preferable to avoid the use of this word in this connection. Sub-clause (*1*) has consequently been omitted and sub-clause (*6a*) inserted to maintain the alphabetical order of the expressions defined.

We have altered the definition of "non-agricultural land" in sub-clause (*5*) so as to provide that in determining whether land is "non-agricultural" or not the purposes for which the land is used at the time of the making of the order under section 3 (instead of at the time of the preparation of the estimate) should be considered. We have also put this definition into a more positive form. We have, further, specified several kinds of land which, in our opinion, should not be treated as "non-agricultural."

Clause 3.—We have made it clear that the estimate of fair rents should not be made until after the publication of the draft of the record-of-rights, as in the case of a settlement of fair rents under section 104 of the Bengal Tenancy Act, 1885.

In sub-clause (*a*) (*i*) and (*ii*) we have omitted the words "or any" before "non-agricultural lands" as unnecessary.

The other changes in this clause are consequential on the insertion of new clauses 3A and 3B.

Clause 3A.—This new clause has been inserted in order to provide for the effective operation of the provisions of the Bill in areas to which the Bengal Tenancy Act, 1885, may not, for the time being, extend.

Clause 3B.—This clause is consequential on the insertion of new clause 3A and the omission of the Explanation to clause 3.

Clause 4.—We have made this clause more explicit by omitting the provision that the Revenue-officer shall be guided by rules made by the Local Government, as we consider that this provision gives too wide a power to the Local Government.

In sub-clause (*b*) we have provided that it is the rent *generally* paid which should be taken into consideration. We have also inserted the words "or of a similar description"

We have made an addition to sub-clause (*c*), as an order under clause 3 may affect the market-value, and it is therefore advisable that the market-value before such an order is made should be taken into consideration.

We have made sub-clause (*d*) more specific by fixing the rate.

New sub-clause (*dd*) has been inserted as it is important that any special conditions and incidents of the tenancy should also be taken into consideration. There was a similar provision in clause 5 (*i*) of the previous Bill, the Bengal Non-Agricultural Lands Rent Settlement Bill, 1933.

The changes in sub-clause (*e*) are consequential on the modification made in the first three lines of clause 2 (*5*)

Clause 5.—We have altered sub-clause (*b*) so as to make explicit provision for the procedure of the Revenue-officer in the case of a tenancy which comprises both agricultural and non-agricultural lands

Clauses 6 and 6A.—Clause 6 has been modified and new clause 6A inserted in order to follow more closely the similar procedure laid down in sections 104-E and 104F of the Bengal Tenancy Act, 1885.

Clause 7.—We have recast this clause in a simpler and more precise form The clause, as revised, should be read with new clause 11A.

Clause 8.—This clause has been omitted as, in view of new clause 11A, it is unnecessary.

Clause 9.—We have made an important change in this clause, as we consider that, where the tenant of the highest degree does not agree to pay the required sum, the amount which can be realised from another tenant or from an under-tenant should not exceed the sum payable by the tenant of the highest degree We have also included a provision relating to proportionate payment where there is more than one under-tenant With reference to sub-clause (*2*) we consider that there should be a prescribed period within which the tenant of the highest degree must signify his agreement. It is unnecessary, in our opinion, to provide that sums payable under this clause shall be deemed to be compensation for the use and occupation of the land. The clause has been redrafted accordingly

Clause 10.—This clause has been altered so as to embody the same principle which we have adopted in the case of clause 9 This alteration has made it possible to redraft the clause in a simpler form.

Clause 11A.—This new clause has been inserted as we consider that a general provision of this nature is advisable This renders the specific provision originally made in clauses 7, 8 and 10 (*5*) unnecessary.

Clause 12.—We consider that this clause is too restrictive in regard to the persons who should be entitled to appeal We have extended the right of appeal to any person who is aggrieved by any entry in or omission from the roll in question, on the analogy of section 104G of the Bengal Tenancy Act, 1885

We have provided that the first appeal shall lie to the prescribed Revenue authority instead of to the Commissioner

Clause 13.—We have extended the right of instituting a suit under this clause to any *person* aggrieved by any entry in or omission from the roll in question, on the analogy of section 104H of the Bengal Tenancy Act, 1885.

The grounds specified in clauses (*g*) and (*h*) of section 104 H (*3*) of the Bengal Tenancy Act, 1885, should also, in our opinion, be grounds for the institution of a suit under this clause. We have inserted (*dd*) and (*ddd*) in sub-clause (*3*) accordingly.

Clauses 14A and 14B.—These two clauses, which reproduce certain of the provisions of sections 111 and 111A of the Bengal Tenancy Act, 1885, are consequential on the insertion of new clause 3A, and we consider that they are necessary for the effective operation of that clause.

Clause 17.—We have widened the scope of this clause so as to include any person whose interests are affected.

Clause 19.—The words inserted in this clause are consequential on the insertion of new clause 3A.

Clause 20.—The changes in this clause are consequential.

Minute of dissent by Babu Khetter Mohan Ray, M.L.C.

Lands used and occupied for residential purposes from time immemorial irrespective of those lands being in the occupation of the original lessees or their heirs, or not, merit further consideration in order that the new assessment may not be oppressive.

There is no provision for ascertaining market value and also for allowing parties affected to produce evidence and document to prove the market value. This should be provided in the Bill instead of leaving the matter to the unfettered discretion of the Revenue-Officer.

With respect to clause 4(*d*), I am of opinion that the rent fixed at four *per cent.* of the market value will be too high. One half *per cent.* of the market value is quite fair.

STATEMENT OF OBJECTS AND REASONS.

In 1923 the High Court Retrenchment Committee recommended that the Official Assignee should be a salaried officer and that his salary and the cost of his office should be met from the fees and commission arising from the administration of insolvents' estates. This proposal necessitated a detailed consideration of the future position of the Official Assignee and his staff both from the administrative and financial points of view and, after consultation with the High Court, it was ultimately decided that, while the judicial control of the Official Assignee should remain with the High Court, it was desirable that the administrative control of this officer and his staff should be transferred to the Local Government. The primary object of this Bill is to make legal provision for this transfer.

Notes on Clauses.

Clause 3.—Sub-clause (*a*) empowers Government to appoint suitable persons to the offices of Official Assignee and Deputy Official Assignee, but the proposed amendment makes it clear that no one is to be appointed to either of these posts who has not been approved by the Chief Justice.

Sub-clause (c).—It is proposed to omit the reference to security in sub-section (*2*) of section 77 as it will be possible to make the requisite provision for security in the conditions of service prescribed under the provisions of the Government of India Act. [See clause 4, proposed section 81A.]

Sub-clause (d).—This sub-section which is to be substituted for sub-section (*3*) provides that the present incumbent of the post of Official Assignee shall without further appointment become the Official Assignee under the Act as amended.

Clause 4.—This clause makes Government responsible for the payment of the salaries and other remuneration of the Official Assignee and his staff and for all incidental expenses connected with his office and its establishment. The position in regard to the regulation of the salaries and other remuneration and the conditions of service of the Official Assignee and his staff is also made clear.

Clause 5.—As it is proposed that the Official Assignee should become a whole-time servant of Government, it is necessary to provide that the revenues of Government should be liable in respect of claims against the Official Assignee for misfeasance, neglect or omission. It will be possible to make provision in the Official Assignee's conditions of service for the action which may be taken by Government against him personally with reference to such matters.

Clause 6.—The sections in this clause correspond with suitable modifications to rules 178A to 178E of the existing Insolvency Rules. It is proposed to indemnify the Official Assignee against the liabilities that arise in connection with his office, for which he is at present able to draw on the Unclaimed Dividend Revenue Account and to substitute for this account the revenues of Government, which will be made liable for the payments mentioned in this clause subject to the provisions of section 82C which corresponds to the existing rule 178E.

Clause 7.—This is the main financial provision of the Bill. All moneys received by the Official Assignee will be kept in an account and provision is made for the investment of any surplus over what is required to meet current demands. The proceeds of such investments are now credited to the Unclaimed Dividend Revenue Account from which account, in addition to the charges mentioned in clause 6, are paid the audit fees, the salaries of the Official Assignee's staff and other office expenses. As it is now proposed that all such expenses should be met from the revenues of Government, this clause provides that the proceeds of these investments should be credited to Government, and it has been estimated that such proceeds together with the commission of the Official Assignee will approximately cover the salaries and other costs of the Official Assignee and his staff. Unclaimed dividends will continue to be treated under section 122 of the Act.

The effect of sub-section (*5*) will be that the accumulated proceeds of all previous investments made by the Official Assignee and which are now standing to the credit of the Unclaimed Dividend Revenue Account (including the proceeds of investments in that account itself) will be credited to Government.

Clauses 8 and 9.—Section 112 has been adjusted and a new section 112A has been inserted to provide for the rule-making power of the High Court and of the Local Government with regard to the respective matters which become their concern under the Act as amended by this Bill.

Clause 11.—As it is proposed that Government should assume responsibility for the payment of the salaryof the Official Assignee, section 125 has been amended to provide for the credit to Government of the fees and commission earned by this officer.

Clause 12.—The amendment to Rule 18 of Schedule II has been proposed with the object of emphasizing that only for special reasons should anyone other than the Official Assignee be ordered to make such sales.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 7th September, 1936:—

L. A. BILL No. 36 OF 1936.

A Bill to implement Article 28 of the Geneva Convention of the 27th day of July, 1929.

WHEREAS India was a signatory to the International Convention for the Amelioration of the Conditions of the Wounded and Sick in Armies in the Field, drawn up in Geneva and dated the 27th day of July, 1929;

AND WHEREAS it is necessary to provide for the discharge of the obligations imposed by Article 28 of that Convention in so far as provision has not been made by the Geneva Convention Act, 1911; 1 and 2 Geo. V, C. 20.

It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Geneva Convention Implementing Act, 1936.

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

Prohibition of use of imitations of emblem of Red Cross on white ground.

2. No person shall use for the purposes of his trade or business or for any other purpose whatsoever any sign constituting an imitation of the heraldic emblem of the red cross on a white ground formed by reversing the federal colours of Switzerland.

*The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

Prohibition of use of emblem of White Cross on red ground or imitations thereof.

3. No person shall use for the purposes of his trade or business or for any other purpose whatsoever the heraldic emblem of the white cross on a red ground, being the federal colours of Switzerland, or any sign constituting an imitation of that heraldic emblem.

Penalty.

4. Any person contravening the provisions of section 2 or section 3 shall be punishable with fine which may extend to one hundred rupees, and when such contravention is committed by a company, association or body of individuals, then, without prejudice to the liability of such company, association or body, every member thereof who is knowingly a party to the contravention shall be liable to the like penalty.

Previous sanction for prosecution.

5. No criminal Court shall take cognizance of any offence punishable under this Act except with the previous sanction of the Governor General in Council or the Local Government.

STATEMENT OF OBJECTS AND REASONS.

Under the provisions of the Order of His Majesty in Council dated the 24th October, 1916, extending the Geneva Convention Act, 1911, to India, the Secretary to the Government of India, Defence Department, has power similar to that vested in the Army Council, to authorise the use of the heraldic emblem of a red cross on a white ground formed by reversing the Federal colours of Switzerland, or the words "Red Cross" or "Geneva Cross," and to institute proceedings with the consent of the Local Government against any unauthorised use of the emblem or title.

2. A new Convention was drawn up in Geneva on the 27th July, 1929. India was a signatory to this Convention, which came into force, so far as His Majesty's possessions are concerned, on the 23rd December, 1931. Article 28 of the Convention requires the Governments of the high contracting parties to prohibit within five years—

(*a*) the use of the emblem or designation "Red Cross" or "Geneva Cross" by private individuals or associations, firms or companies, other than those entitled thereto under the 1911 Convention;

(*b*) the use, for commercial or any other purposes whatsoever, of any sign or designation constituting an imitation of the heraldic emblem of the red cross on a white ground formed by reversing the Federal colours of Switzerland;

(*c*) the use by any person, for commercial or any other purposes whatsoever, of the heraldic emblem of the white cross on a red ground, being the Federal colours of Switzerland;

(*d*) the use by any person, for commercial or any other purposes whatsoever, of the use of an imitation of the white cross on a red ground.

3. The Geneva Convention Act, 1911, as applied to India by the Order of His Majesty in Council dated the 24th October, 1916, regulates (*a*) above, and, in view of the provisions of section 65 (2) of the Government of India Act, 1919, the Indian Legislature is not competent to pass any law affecting that Act. The Convention of 1929 may be implemented, as far as (*a*) is concerned, by administrative instructions from the Government of India to their Defence Secretary, to the effect that he should not exercise the power to authorise the use of the emblem which was given him by the Order in Council of 1916; while the present Bill is intended to secure the prohibitions referred to at (*b*), (*c*) and (*d*) above.

J. F. RUSSELL,
Personal Assistant to the Chief Engineer to the Government of Bengal.

Calcutta, the 15th October 1936.

Resolution on the Report on the Police Administration in the town of Calcutta and its suburbs for the year 1935.

GOVERNMENT OF BENGAL.

Police Department.

Calcutta, the 16th October 1936.

RESOLUTION No. 4351 Pl.

Read—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1935.

The office of the Commissioner of Police was held during the year under review by Mr. L. H. Colson, C.I.E., except for the period 4th April to 18th October when Mr. A. D. Gordon, C.I.E., acted for him during his absence on leave.

2. The strength of the force at the close of the year was 5,651 officers and men. The number of constables enlisted during the year was 211 including 50 Bengalis against 117 including 51 Bengalis during the previous year. The fall in the percentage of recruitment of Bengalis is noticeable and His Excellency in Council hopes that it will be possible to increase this percentage, always supposing that suitable candidates offer themselves for enlistment.

Discipline.—His Excellency in Council notes with regret that there was no decrease in the total number of officers and men punished departmentally. He trusts that this does not indicate any real deterioration in the tone of the force in general.

3. *Health.*—The general health of the force continued to be good. There were 48 deaths against 44 of the previous year, but the average daily number of sick fell from 104 of the previous year to 101. An interesting examination of members of the force by Dr. Lowe of the British Empire Leprosy Association was made during the year, and it is satisfactory to note that no more than 47 were found suffering from leprosy and, that of a non-infectious character. His Excellency in Council notices with satisfaction the improvement which has been effected in the nursing arrangements at the police hospital.

4. *Crime Statistics.*—There was some increase in the total number of cognizable cases reported to the police. The increase was due mainly to the better reporting of small thefts and burglaries committed mostly by house servants and partly also to the extension of residential areas in the suburbs. The control of serious crime was however very satisfactory as there was an appreciable drop in the number of cases of murder, coining and rioting and a total absence of dacoity, against 7 such cases in 1933 and 4 in 1934. There was a further improvement in the recovery of stolen property, the percentage in value of property recovered to property stolen being 28·5 in 1935 against 26·2 in the previous year.

His Excellency in Council is glad to note that the Detective Department has maintained its high standard of efficiency and detective ability, which is amply borne out by the interesting accounts recorded in the report of the more important cases dealt with by them.

The Special Detective Staff of the Port Police continued to do good work, specially in the detection of unauthorised possession of firearms, 19 persons being arrested and 9 convicted. They succeeded in having externed from Bengal or the notified area 10 well-known smugglers of arms under the Bengal Smuggling of Arms Act.

5. *Revolutionary Crime.*—Although fortunately Calcutta was free from any overt terrorist outrage, terrorism is still active and malignant. The main preoccupation of the Special Branch of the Calcutta Police, in co-operation with the Intelligence Branch of the Bengal Police, was the inquiries preliminary to the institution of the important Tittagarh Conspiracy Case, in which 30 persons accused of terrorist activities were finally put on their trial.

His Excellency in Council is pleased to take this opportunity of recording his appreciation of the valuable services rendered by the Special Branch to whom much credit is due for keeping subversive elements well under control.

6. *Public Order.*—A satisfactory feature of the year's administration was the absence of any serious communal friction in spite of the fact that there occurred more than one occasion, such as the Karachi firing, the Shahidganj dispute and local disturbances in connection with the Congress Golden Jubilee Celebration, for the stirring up of communal feeling.

7. *Labour.*—There were 20 strikes, of which some resulted in breaches of peace as the strikers resorted to aggressive picketing.

A disquieting feature of the year under report is the way in which communist agitation and propaganda amongst the urban workers has steadily grown both in volume and intensity. A series of meetings were staged by the agitators in which communism was frankly preached and class warfare advocated. The increasing association of workers with these meetings was particularly noticeable. It has always been the aim of the Local Government to foster and encourage *bonafide* trade unionism which aims at the real welfare of the workers, and it is much to be hoped that all who genuinely wish to promote this end will co-operate with Government in their attempts to direct the labour movement into healthy and useful channels and to save it from subjection to those revolutionary and communist doctrines, which, utterly alien as they are to true trade-unionism, can only result in its destruction.

8. *Miscellaneous.*—The Traffic Advisory Board set up last year continued to do much useful work.

It is regrettable, that there was a further rise in the number of street accidents. A total number of 113 persons were killed and 2, 446 injured from all causes, the corresponding totals of last year being 99 and 2,195. By far the largest number of casualties was due to private motor cars, the number of those killed and injured from this cause being 60 and 1,662 respectively. His Excellency in Council agrees with the opinion expressed in the report that the bad lighting of some of the streets and the absence of any effective device for lighting bullock carts have contributed largely to these accidents. He trusts that the Commissioner of Police with the help of the Traffic Advisory Board will be able to work out some measures which may reduce their number. He notes in this connection that draft rules for the lighting of bullock carts have already been published.

The number of beggars arrested and sent up for trial increased still further from 8,235 of the previous year to 9,817. A practical solution of this pressing problem has yet to be found though certain proposals have been made to Government on which the views of the Corporation have been invited. The arrest and sending up for trial of a vast number of beggars merely to be discharged with a warning or a nominal sentence is obviously wasted effort and Government will always be ready to consider any practical suggestions for reducing this admitted evil.

9. *Commendation of Officers.*—His Excellency in Council has been pleased to read the tributes paid by the Commissioner to his Deputy Commissioners, Assistant Commissioners and other subordinate officers, and desires to take this opportunity of placing on record his appreciation of the services rendered by all ranks of the force.

Order.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette.*

By order of the Governor in Council,

E. N. BLANDY,

Chief Secy. to the Govt. of Bengal (offg.).

Resolution on the Report of the Police Administration of the Bengal Presidency for the year 1935.

GOVERNMENT OF BENGAL.

Police Department.

Calcutta, the 17th October 1936.

RESOLUTION—No. 4390Pl.

Read—

The Report on the Police Administration of the Bengal Presidency for the year 1935.

Mr. T. J. A. Craig, C.I.E., held the office of the Inspector-General of Police till the 23rd April 1935, when he proceeded on leave preparatory to retirement and Mr. J. C. Farmer held the office for the remainder of the year.

2. *Eastern Frontier Rifles.*—The battalion continued to maintain its traditional standard of efficiency and discipline under the command of Lt.-Col. E. D. Dallas Smith, I.A. Owing to the continued deputation of a detachment to Chittagong and the absence of a leave reserve, the full complement of British officers was not always available at Dacca, a state of affairs which cannot but react adversely on the efficiency of the battalion.

3. *Strength, health and discipline.*—The strength of the permanent forces (including the Eastern Frontier Rifles) at the close of the year was 24,978 officers and men against 25.130 of the previous year. The reduction in the strength is due mainly to the amalgamation of the River Police with the District Police and the retrenchment of staff in the three railway police districts. It is interesting to note that whereas in England and Wales there was in 1935 one constable for every 682 of the population, the corresponding figure for Bengal is one constable for every 2,020.

There was a slight increase in the percentage of local recruits compared to last year. It is satisfactory that candidates with good educational qualifications are now coming forward for enlistment as constables.

His Excellency in Council notes with pleasure that the improvement in the health of the force which was noticed last year has been maintained and that the arrangements for the nursing of the sick in hospital are working satisfactorily.

The total number of admissions into hospital during the year was 11,873 against 12,730 and 15,044 in the years 1934 and 1933, respectively.

His Excellency in Council observes that although the number of officers and men judicially punished decreased, there was a growth in the number of those departmentally punished, 8,916 officers and men having been so punished in the year under review against 8,228 in 1934 and 7,957 in 1933. The number of complaints instituted against the police by private individuals was 247 against 233 in 1934. It is significant that out of 210 cases disposed of during the year, only 15 ended in conviction, 68 in acquittal or discharge and as many as 127 in dismissal. These figures indicate the maintenance of a high standard of discipline.

4. *Police buildings.*—His Excellency in Council shares the opinion expressed in the report that the condition of many police buildings is unsatisfactory and improvement in this direction is urgently called for, but financial stringency still stands in the way of making adequate provision for the purpose. It is hoped that through the recent relaxation of certain financial rules some improvement may be effected, the funds placed at the disposal of the Police Department being now capable of being utilised to better advantage.

5. *Crime Statistics.*—There was an increase in the number of non-cognizable cases from 123,291 to 124,213, but the number of true cognizable cases and of serious crimes fell from 70,128 and 45,228, respectively, to 68,302 and 43,052. The decrease in serious crime was most noticeable in the categories riot, dacoity, burglary and theft which fell from 719, 1,280, 27,698 and 13,196, respectively, to 671, 1,242, 26,149 and 12,733, and reflects credit on the diligence of the force as a whole. The number of dacoities in Tippera, Burdwan, Bakarganj and Bogra were respectively 33, 20, 20 and 18 less than in the previous year. Although the number of dacoities is still very large compared to that in other provinces in India the improvement brought about is both real and progressive as is illustrated by a comparison of the total of 1,242 true cases of dacoities in 1935 with those of 1,280 in 1934, 1,518 in 1933 and 1,852 in 1932. His Excellency in Council trusts that the special efforts which are being made to check this crime in co-operation with

(11) A relief map of India.
(12) A map of the world on Mollweide's equal-area projection and a map of Asia.
(13) A practical Atlas of Modern Geography (George Gill & Sons).

It is essential that the student should be provided with atlases, or with the necessary hand-map, and with a drawing instrument box. Maps for school work should not contain too much detail or crowded with names.

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.

Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps, also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, name on one side, and the same map without names on the reverse, published by Arman Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

The uncoloured half-penny maps showing river system and a few towns published by the same Company, are excellent for class use.

The autograph hand maps, with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand-maps. The 15" map of the world of Mollweid's equal-area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are publised by Messrs. Edward Arnold of Leeds, Horns Hacbett of Paris, Messrs. Holzel of Vienna and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 1207L.—21st October, 1936.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

THE BENGAL LOCAL SELF-GOVERNMENT (SECOND AMENDMENT) BILL, 1936.

A

BILL

further to amend the Bengal Local Self-Government Act of 1885.

WHEREAS it is expedient further to amend the Bengal Local Self-Government Act of 1885 in the manner hereinafter appearing ; Ben. Act III of 1885.

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act ; 5 and 6 Geo. V., c. 61; 6 and 7 Geo. V, c. 37 ; 9 and 10 Geo. V, c. 101.

It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Bengal Local Self-Government (Second Amendment) Act, 1936.

(*2*) It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, appoint.

Amendment of section 16B of Bengal Act III of 1885.

2. In section 16B of the Bengal Local Self-Government Act of 1885—

(*1*) in sub-section (*1*), for the words beginning with "at the first meeting" and ending with "or appointment" the following shall be substituted, namely :—

> "in the presence of the other members of the Board (or such number of them as would be sufficient to form a quorum at a meeting) assembled for a meeting of which notice has been given," ;

(*2*) in sub-section (*2*) for the words "the said period" the words "three months of the date on which his term of office commences," shall be substituted ; and

(*3*) after sub-section (*2*) the following sub-sections shall be added, namely :—

"(*3*) Where any person has failed whether before or after the commencement of the Bengal Local Self-Government (Second Amendment) Act, 1936, to make the oath or affirmation of allegiance or has made such oath or affirmation otherwise than in accordance with the provisions of this section and the Local Government is satisfied that the failure of such person to comply with the provisions of this section was due to inadvertence or misapprehension or circumstances beyond his control, or that such person is an alien exempted from the disabilities imposed by the Bengal (Aliens) Disqualification Act, 1918, in respect of election or appointment as a member of a District Board or Local Board, the Local Government may declare that the failure of such person to comply with the provisions of this section is condoned. Ben. Act III of 1918.

The Bengal Local Self-Government (Second Amendment) Bill, 1936.

(*Clause 2.*)

(*4*) When a declaration has been made by the Local Government under sub-section (*3*) in respect of any person, such person shall be deemed to have continued notwithstanding his default to hold his office, and all acts done by him or by the District Board or Local Board or by any officer or servant of such Board before the date of the said declaration shall be and shall be deemed to have always been as valid and lawful as if the person in respect of whom the declaration has been made had made the oath or affirmation of allegiance in accordance with the provisions of this section.

(*5*) Where all the members of a District Board or Local Board have failed to make the oath or affirmation under this section or where the number of members of any such Board who have made the oath or affirmation is insufficient to allow of a quorum being formed under the provisions of this Act and the Local Government is not satisfied that the failure of the members who have failed to make the oath or affirmation was due to inadvertence or misapprehension or circumstances beyond their control, the Local Government may, by an order published in the *Calcutta Gazette*, supersede the District Board or Local Board for a period to be specified in the order and thereupon in the case of a District Board the consequences specified in clauses (*b*) and (*c*) of section 132 and in the case of a Local Board the consequences specified in clause (*b*) of that section shall ensue. Thereafter the Local Government shall, as soon as may be convenient, reconstitute the Board by a fresh general election and fresh appointment and the persons who failed to make the oath or affirmation shall not be deemed disqualified for election or appointment."

STATEMENT OF OBJECTS AND REASONS.

The existing provision of section 16B, which requires that the elected and appointed members of a District or Local Board shall make the oath of allegiance within three months from the date of publication of their names in the *Calcutta Gazette*, has given rise to certain practical difficulties.

The selection of candidates for appointment in consultation with the Local Officers often takes time, and it sometimes happens that the names of the appointed members cannot be published within three months after the publication of the names of the elected members. As the first meeting of the newly formed Board cannot be held before the names of both the elected and appointed members are published in the *Gazette*, the former, in such circumstances find no opportunity to make the oath within the prescribed time.

To remove this difficulty it is proposed to amend the section on the lines of section 57 of the Bengal Municipal Act, 1932 (Ben. Act XV of 1932).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 2nd October 1936.

Second Forecast of the Cotton Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—At the outset the weather was fairly favourable for early crop both at the time of sowing and early period of growth. Since then conditions were generally helpful for development.

Area sown.—The area sown with early cotton is reported to be 74,022 acres this year as against 72,793 acres in the corresponding forecast of last year. The decrease in acreage under Midnapore is due to utilisation to other crop of the area where the crop failed owing to heavy rainfall.

(*4*) The Chief Engineer shall, in all cases, act as adviser of the district board.

3. *Submission of sketch, statement and application.*—(1) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 10,000, or when the financial assistance of

the Local Government is desired, the district board shall submit the sketch of the project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(*2*) The Sanitary Board, after considering the project, shall forward it to the Local Self-Government Department of Government for decision as to administrative approval with such recommendations as they may think fit, and, if the project relates to local areas under the control of two or more local bodies, with proposals for the distribution of the cost.

(*3*) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 5,000 but does not exceed Rs. 10,000, and when the financial assistance of Local Government to the scheme is not required, it shall not be necessary for a district board to obtain the administrative approval of the Local Government to such scheme; but the Chief Engineer shall be consulted and the scheme with a copy of the Chief Engineer's opinion on it shall be submitted to the Commissioner for information.

4. *Conditions precedent to obtaining administrative approval of the Local Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the district board shall satisfy the Local Government—

(*1*) that the cost of maintenance of the projected work can be met by the district board from its own revenue;

(*2*) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be prescribed by the Local Government; and

(*3*) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.*—(1) When the administrative approval of the Local Government has been obtained to the project (but in no case before such approval, except with the previous sanction of the Local Government), the district board may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(*a*) apply for the services of the Chief Engineer, or

(*b*) with the previous sanction of the Chief Engineer—

(*i*) entrust the work to a private firm; or

(*ii*) entrust the work to the District Engineer; or

(*iii*) cause the plans and estimates to be prepared by any other officer in the employ of the district board, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(*2*) In case (*a*) referred to in sub-rule (*1*) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the district board at the same time undertakes to pay for each such scheme the fees laid down in rule 30.

(3) In case (b) referred to in sub-rule (1), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(1) The detailed plans and estimates shall, on completion, be forwarded by the district board in duplicate to the Sanitary Board through the Commissioner of the Division or for information to the Commissioner of the Division as the case may be, together with, in the former case, a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form, and, in the latter case, a copy of the Chief Engineer's opinion on the scheme as finally drawn up.

(2) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(3) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(4) The Sanitary Board shall submit the scheme as finally drawn up to the Local Self-Government Department of Government for approval, with an expression of their opinion (a) on its merits and (b), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the district board shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 138 of the Act regulating house-connections.

8. *Final sanction of schemes.*—The Local Government may either sanction or reject the scheme as submitted by the Sanitary Board or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board.

9. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Local Government under rule 8.

10. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the district board has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the district board that the sanctioned detailed scheme will require material alteration, the district board shall forthwith submit to the Local Government for sanction a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(a) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an officer specially appointed for the purpose under rule 5 (1) (b) (i) or 5 (1) (b) (iii) and rule 12 (2) (a), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.

(*b*) in the case of schemes prepared and carried out by the District Engineer under rules 5 (*1*) (*b*) (*ii*) and 12 (*2*) (*b*), by that officer and shall be scrutinized by the Chief Engineer.

(*c*) in all other cases, by the Chief Engineer.

11. *Taking over of complete supervision and control by Chief Engineer.*—(*1*) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Local Government make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The district board shall undertake to pay the fees specified in rule 32 before work on the scheme is begun.

(*2*) In other cases the district board may request the Chief Engineer to take over supervision and control of the work, and on the district board undertaking to pay the fees specified in rule 32, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(*3*) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (*1*) or sub-rule (*2*), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be covered by the fees specified in rule 32 hereof, or shall be met by the district board by payment of such fees as the Local Government may from time to time prescribe.

(*4*) In addition to the above fees the district board shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the district board under sub-rule (*4*), if, in the opinion of Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(*5*) The district board shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the district board as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Local Government for decision.

12. *Conditions as to detailed engineering supervision.*—(*1*) Where the projected work is estimated to cost more than Rs. 10,000, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government under rule 8.

(*2*) Save as otherwise expressly directed by the Local Government—

(*a*) the work shall be carried out under the supervision of an engineer, either permanently employed by the district board or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(*b*) with the previous approval of the Chief Engineer, the work shall be carried out under the supervision of the District Engineer and his staff; or

(*c*) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 11.

(*3*) In cases (*a*) and (*b*) referred to in sub-rule (*2*), the work while in progress shall be subject to inspection and control by the Chief Engineer.

13. *Report by district board to the Chief Engineer in case of small work.*—Where the work is estimated to cost not more than Rs. 10,000 and where a grant or loan has been taken from the Local Government, the district board shall report to the Chief Engineer, the agency by which it is proposed to have such works carried out, and shall follow the instructions issued by the Chief Engineer in the matter.

Tenders and Contracts.

14. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (*a*) or clause (*b*) of rule 12 (*2*) the procedure provided by rules 15 to 26 shall be followed.

15. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the district board, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 30, prepare working or contract drawings, specifications, estimates, bills or quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

16. *Approval of Chief Engineer to drawings, specifications, forms of tenders, etc.*—When drawings, specifications, bills of quantities, forms of tender and other documents or plans referred to in rule 15 relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (i).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (ii).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (iii).—The standard form of a contract shall be adopted wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (iv).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

17. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

18. *Approval of plans, drawings, specifications, forms of tender, etc., by the district board.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the district board in meeting. Whenever the district board desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

19. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the district board, who shall attend in person at the office of the district board, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

20. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the district board shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

21. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(*i*) sent to the Chief Engineer; or

(*ii*) in the case of works carried out under rule 12 (*2*) (*a*) under the supervision of an engineer approved by the Chief Engineer as being competent to advise on these questions, handed to that officer; or

(*iii*) in the case of works carried out under rule 12 (*2*) (*b*) under the supervision of the District Engineer, handed to that officer,

for check and scrutiny:

Provided that, in case (*ii*) or (*iii*), the engineer employed by the district board or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

22. *Return of tenders, after check and scrutiny.*—The Chief Engineer, or the engineer employed by the district board, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the district board with his remarks and recommendations.

23. *Consideration of tenders.*—The district board shall in meeting consider the tenders when checked and scrutinized under rule 22, and either accept one of them provisionally or, if the district board thinks it desirable, refer the matter to the Chief Engineer for advice.

24. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

25. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for

any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

26. *Provisional acceptance and submission of tenders to the Chief Engineer.*—Except in the case of tenders for works involving a cost not exceeding Rs. 500, every tender after it is provisionally accepted, shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the district board:

Provided that, in case of a difference of opinion between the district board and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the district board so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

27. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the district board at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of the district board.

28. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 12 (2) (*c*) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Public Works Department, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

29. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Local Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

30. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the district board:—

Nature of work.	Fees.
1	2
(*a*) Preparation of detailed estimates and drawings for projects and schemes.	2 per cent. on the estimated cost of the works.
(*b*) Preparation of contract drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(*c*) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	½ per cent. on the 1st Rs. 20,000 of the estimated cost and ¼ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (*a*) detailed estimates and drawings and (*b*) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The district board shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Local Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the district board: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

31. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch of project.*—When the preparation of the sketch of a project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the district board shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

32. *Fees for supervision and control of works under rule 11.*—(*1*) The fee payable for the supervision and control of works by the Chief Engineer under rule 11 shall be 8 per cent. on the actual cost of the work.

(*2*) The percentage prescribed in sub-rule (*1*) shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule (*2*).
